Feel the Difference

TELESTEPS

No. 1 in telescopic work tools

MANY ADVANTAGES

TELESCOPIC

With the telescopic function and the minimal turning radius, the ladders are perfect even in small spaces. The ladders can be adjusted to the optimal height to fit your needs precisely. In this way, a telescopic ladder is many ladders in a single unique ladder.

SIMPLE

We have always been convinced that the best ladder is both short and long. The telescopic ladder is easy to pull out to the desired length and securing it before use is just as quick. When the red locking catches have unfolded under each rung, this indicates that the ladder is ready for use.

SAFE

Safe, functional and easy to take with you. The ladder is small and compact for storage and transportation.

The Lightweight Telescopic Ladder. Simple.

ECO LINE 3,2 M

Art. no:	20132
No. of treads:	10
Tread width:	40 mm
Working height:	4,4 m
Length, extended:	3,2 m
Length, closed:	0,77 m
Width:	0,49 m
